

## Chairing

### I. Possible responses

1. Well, as it seems that nobody is ready to ask a question at the moment, I'd like to use the opportunity to ask the speaker if ... 2. Professor Smith, do you think you could elaborate a little on .../say something more about "process re-engineering"? 3. OK. I think that's enough about Temelín. Can we move on to the overall energy policy of the Czech government? 4. What do you think the implications might be for our project? 5. Dr Wilkie, you're an expert in this field. I'm sure that people would like to hear what you think.
